

Project Peer Evaluation

Group projects are sometimes looked upon as being "unfair." Through the use of the partner evaluation your perception of the quantity of work that you performed and that of your partner is analyzed against the perceptions of your partner. Through this process, hopefully equity is achieved. These evaluations are a serious statement and are used to re-distribute up to 50% of the grade on the project. In order for this process to work effectively there is the need for you to be honest and objective; your ratings and comments are confidential.

These evaluations must be submitted by the due date - no late submissions will be accepted. If you do not submit an evaluation it will be assumed that you did not perform your fair share of the work and your grade will suffer as a result.
